

# Mrs. Myers Economics of Business

## Why this class is a good fit

This class is for those who are interested in business and who learn best through applying their knowledge to real-life situations. All assessments are project-based, so they are written and presented (no scantrons!). This class is for people who like to work with a group and have good communication and organization skills.

## About the class

The course is designed to teach principles of economics it will focus on the skills and knowledge needed to start a business as a means of learning the foundations of economics. Units of study will include interview skills, marketing, financial literacy, consumer sales, and creating a business proposal.

**10 minutes of reading** time as well as **30 minutes of homework** time on average per week

## Benefits

### 1. Team Work

Work with a group to form a business based on your ideas and learn the skills needed to start a business.

### 2. Understand your personal finances

You will have the opportunity to expand your personal finance knowledge, by learning the importance of investments and retirement accounts, creating business, and understanding how money and taxes work
