

Maker's Studio

What Will You Do?

- Exercise creativity and learn how to craft cool stuff!
- Work independently or in groups to complete self-directed projects with teacher support.
- Build resilience, learn to be resourceful, and creatively solve problems throughout the learning process (we embrace failure and mistakes!)
- Learn hobbies that help you practice mindfulness and improve focus and concentration
- Learn to never be bored again!
- Create items for sale and learn how to price them
- Socialize with friends while you work or have some down time to recharge
- Grading is based on participation, not on technical skills

Who Should Take It?

- Anyone who likes to be creative/artistic
- People who like to work with their hands
- People who like to try new things

No work required
outside of class

The Fine Print

- No prerequisite classes or skills required
- It is an elective and does not fulfill A-G Fine Arts Requirement
- This is not a good class for you if you have no interest in learning how to craft or you cannot work without a lot of oversight
