ELECTIVES											
<i>By their nature, The Arts Electives incorporate collaborative and/or individual work that can be pursued during class time. This type of work varies greatly from discipline to discipline, and even from project to project within the same course. In addition, the level of depth and creativity students choose to apply to their projects is limitless, and has a direct connection with the time they spend on their artistic craft. While there is class time allotted to work on curricular projects, students may choose or may need to spend time outside of class on their art. Furthermore, as performances or art shows represent substantial curricular assessments, time spent outside of class immediately before and during such showcases is typically greater than at other times throughout the course.</i>
